## **OVERVIEW**

**Spearpoint Training Group is a professional organization that offers training and consulting services to law enforcement, military and civilian clients.**

**We currently offer training courses restricted to law enforcement and military students through the Scout Tracking Operations School. This school focuses on topics related to: search and rescue, fugitive apprehension, counter drug reconnaissance and crime scene investigation.**

**Our school currently offers numerous courses related to various topics taught by multiple instructors. Our Instructor Cadre is comprised of proven subject matter experts who have experience in combat, military special operations, or law enforcement tactical operations. Our instructors also provide consulting services through Spearpoint, when requested, on a case by case basis.**

**Our curriculum meets the highest training standards and is based on current real-world experience. Most of our instructors are currently using the tactics they teach in law enforcement or military applications. Because of this, our students receive the most current and relevant information available. We are passionate about our curriculum and can truly say it has been tested in the field, it is continually refined and it has been proven by success. Semper Anticus – Always Forward!**

- Law Enforcement Tactical Operations Background
- Certified Tactical Tracker
- 500+ Hours of Experience in Mantracking
- Certified Law Enforcement Instructor
- SWAT Team Breaching Specialist
- Team Leader for a Law Enforcement Tactical Tracking and Reconnaissance Unit (TTU)

# CORE CURRICULUM

## LAW ENFORCEMENT MANTRACKER - LEVEL 1

Law Enforcement Mantracker – Level I is a 24 hour course designed to teach basic visual tracking TTPs (tactics, techniques and procedures) needed to successfully track individuals in a rural and urban environment. Whether the quarry is lost or a fleeing felon, LEM-1 provides the team-based tools needed to conduct tracking operations with “officer safety” at the forefront. At the conclusion of the course, students will work as a team to track and apprehend a fugitive in a scenario based on real world law enforcement tracking operations.

## LAW ENFORCEMENT MANTRACKER - LEVEL 2

Law Enforcement Mantracker - Level 2 is a 24 hour course designed to teach intermediate visual tracking TTPs. It expands on the study of backtracking operations and crime scene investigations. LEM-2 further expands into initial commencement point (ICP) procedures, search and rescue operations and urban tracking techniques. LEM-2 introduces sUAS support, track support element TTPs and scout/reconnaissance tracking operations. Students will also receive introductory training in small unit tactics to include reacting to contact and actions under fire.

## LAW ENFORCEMENT MANTRACKER - LEVEL 3

Law Enforcement Mantracker - Level 3 (LEM-3) is a 24-hour course designed to teach intermediate to advanced visual tracking, reconnaissance, rural surveillance, and small unit tactics through a scenario-based method of delivery. The evolving scenarios in LEM-3 will be customized to each class based on student composition, local terrain, previous incidents, and likely future operations specific to the area. At the conclusion of the course, students will participate in a detailed after-action review of all scenarios and perform remedial training based on performance.

## LAW ENFORCEMENT MANTRACKER - LEVEL 4

Law Enforcement Mantracker - Level 4 (LEM-4) is a 24-hour course designed to teach advanced visual tracking TTPs. It builds upon the groundwork already established to present advanced concepts. LEM-4 is distinct in its use of proficiency lanes that divide the skillset into three possible variations of manpower a tracker may work with. Students will conduct extended training lanes solo, in three man teams and large tracking teams. Additionally, students will investigate a simulated crime scene in small teams. Advanced concepts will be reinforced during the extended tracking lanes.

## CLIENT REVIEWS

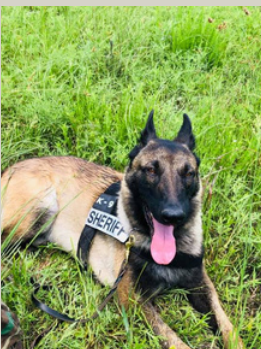

### SUPERVISOR - DRUG ENFORCEMENT ADMINISTRATION

"We recently had SPEARPOINT organize a LE scout tracking operations course and was blown away with the curriculum, training, practical's, respect, patience and service at which we received. SPEARPOINT has helped me immensely operationally. Because of this training I feel confident that my group is much better equipped to handle the tracking of individuals in a rural/urban setting. All while doing it is a safe/tactical manner. Core values such as honesty, integrity, respect, kindness and commitment are foundational to their work ethic. SPEARPOINT clearly sets the standard!"

### COMMANDER - FUGITIVE TASK FORCE

"Excellent training course! Our Sheriff's Fugitive Task Force had the opportunity to attend and receive training in their 3 day Man Tracking class. Although we have attended other Man Tracking courses, this one was superior and far more informative, complete with real-world scenario situations from SAR to Fugitive Apprehension. We are already planning on taking advantage of Spearpoint's various other training courses."

### INVESTIGATOR - HOMELAND SECURITY TASK FORCE

"The training provided by this company is excellent! The instructors spend a great deal of time making sure the lessons are delivered properly and effectively. The skills taught are vital in rural operations and very nearly as important in urban operations. Tracking is a perishable skill and all trackers can benefit from attending training put on by this company, be they new or experienced. All in all, great group and highly knowledgeable!!!"

### DETECTIVE - STREET CRIMES UNIT

"This group is phenomenal with a great instructor base that are subject matter experts in what they instruct. I learned more than I ever thought possible. The training applies to military operations, rural and municipal law enforcement and search and rescue applications. The instructors are professional and experienced. The course is engaging, informational and flows appropriately. I can't recommend Spearpoint enough. Don't miss out on an opportunity to take a class with these guys."
